SUMMARY

Software developer in the Orlando area with 2+ years building C# REST APIs and Angular interfaces for a production insurance rating engine used by paying clients. Ships and maintains live software, including two React apps currently in daily use in a Seminole County, Florida classroom.

SKILLS

Languages: TypeScript, JavaScript, C#
Frameworks: Angular, React, Node.js
Tools: Git, Jira, Docker, REST APIs, OAuth

EXPERIENCE

- Wyoming Machinery - IT / PC Support Technician *Oct 2025 - May 2026*
- Supported 500+ employees and workstations, closing 100+ tickets per month with same-day average resolution.
- InsurXcel - Software Developer Intern (part-time, remote) *June 2023 - Jan 2026*
- Built and maintained C# REST API endpoints for a production insurance rating engine that generates live policy quotes for three paying client companies, serving both an internal admin dashboard and a customer-facing self-service quoting portal.
 - Developed Angular components for the admin dashboard used daily by client staff to review and manage quotes, replacing manual spreadsheet work.
-

PROJECTS

- VoiceVolume - React, TypeScript | voicevolume.buck-marshall.com *Sep 2026*
- Built and deployed a web app on a two person team that helps elementary students visualize their volume level. In use by a Seminole County, Florida teacher and used by roughly 20 students in their classroom.
- TeacherTime - React, TypeScript | teachertime.buck-marshall.com *Aug 2026*
- Built and deployed a web app that teaches elementary students to read analog clocks, adopted by a Seminole County, Florida teacher and used by roughly 20 students as part of regular classroom instruction.
- SoloSuite - Node.js, TypeScript, Docker | github.com/Marshy8/solosuite-backend *Aug 2026*
- Built a containerized Node/TypeScript backend for solo service workers that converts client appointment requests into Google Calendar events through an OAuth-authenticated integration, eliminating manual scheduling entry.
-

EDUCATION

University of Wyoming - Laramie, WY
B.S. Computer Science, Minor in Mathematics *Aug 2021 - May 2025*
Cybersecurity Certificate
Cum Laude | GPA 3.935 | Trustees Scholar (Full-Ride Academic Scholarship)
